HEALTH HAZARDS:

EYE

Corrosive. Severe irritant, exposure may result in pain, redness, corneal burns and ulceration with possible permanent damage with prolonged contact.

INHALATION

Slightly corrosive – irritant. Over exposure at high levels may result in irritation of the nose and throat, coughing, nausea and nasal inflammation. Low volatility markedly reduces inhalation hazard.

SKIN

Corrosive – severe irritant. Contact may result in itching, pain, redness, rash and dermatitis. Prolonged contact may result in burns.

INGESTION

Corrosive. Ingestion may result in ulceration and burns to the mouth and throat, nausea, vomiting, abdominal pain and diarrhoea.

PRECAUTIONS FOR SAFE USE:

PPE:

Wear splash proof goggles, coveralls and PVC/rubber gloves. When using large quantities or where heavy contamination is likely, wear a PVC apron and rubber boots.

VENTILATION:

Do not inhale vapours. Use in well ventilated areas. In poorly ventilated areas, mechanical extraction ventilation is recommended.

FLAMMABILITY:

Non flammable. No fire or explosion hazard exists.

REACTIVITY:

Incompatible with oxidising agents (eg fluorine), acids (eg nitric) and active metals. May absorb carbon dioxide on exposure to air, precipitating insoluble silicates.

FIRST AID

EYE

Flush gently with running water, holding eyelids open for 20 minute period. Seek immediate medical attention.

INHALATION

If over exposure occurs leave exposure area immediately. If other than minor symptoms are displayed seek immediate medical attention.

SKIN

Gently flush affected areas with water. Seek medical attention if irritation develops.

INGESTION

If poisoning occurs, contact a Doctor or Poisons Information Centre on 131126 (Australia wide). Do not induce vomiting. Give glass of water to drink, seek urgent medical attention.

SAFE HANDLING PROCEDURES

STORAGE

Store in cool, dry, well ventilated area, removed from oxidising agents, acids, active metals, direct sunlight, heat sources and foodstuffs. Ensure containers are adequately labelled, protected from physical damage and sealed when not in use. Large storage areas should be bunded and have appropriate ventilation systems.

TRANSPORT

Not regulated for transport purposes.

WASTE DISPOSAL

Neutralise with dilute acid (eg 3mo/l hydrochloric acid) or similar. For small amounts absorb with sand or similar and dispose of to an approved landfill site. Contact Risk Management Technologies on (08) 9322 1711 for additional information.

EMERGENCY RESPONSE

SPILLAGE

If spilt (bulk), absorb with sand or similar wearing face shield or splash-proof goggles, PVC/rubber gloves, coveralls and boots. Collect and place in sealable containers for disposal. CAUTION: spill site may be slippery.

FIRE/EXPLOSION

Non flammable. No fire or explosion hazard exists

EXTINGUISH

Non flammable. Prevent contamination of drains or waterways, absorb runoff with sand or similar.

NOTE: The information contained in this bulletin is offered on data that we believe to be reliable and has been prepared in good faith, but without guarantee, as conditions and methods of use of our products are beyond our control.
